## Section 2: How the Celeste Australian Small Companies Fund works

---

The Fund is a managed investment scheme registered with the ASIC and is not listed on any securities exchange. When you invest in a managed fund, your money is pooled together with other investors' money. Celeste has appointed JPMorgan Chase Bank, N.A. (Sydney Branch) (**JPMorgan**) as the custodian. JPMorgan has not been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. JPMorgan has not independently verified the information contained in this PDS and, accordingly, accepts no responsibility for the accuracy or completeness of the information. JPMorgan does not guarantee the success or the performance of the Fund nor the repayment of capital or any particular rate of capital or income return.

🕒 **Unit pricing:** When you invest you acquire units in the Fund that represent the value of your investment. The price of each unit is based on the value of the assets of the Fund, less the accrued expenses and other liabilities of the Fund (including the daily accrued management and performance fees), divided by the number of units on issue. The value of units will change as the value of the underlying investments rises or falls. You can increase or decrease your investment by making additional applications for units or withdrawal requests.

Unit prices are calculated each Business Day and are carried out in accordance with the Fund constitution and the Celeste Unit Pricing policy. We will inform the unit holders if we exercise our discretion to change the current unit pricing process of the Fund.

The minimum initial investment, holding value and transaction values are set out below. We reserve the right to waive or vary these minimums at our absolute discretion. If you invest through an IDPS, you will be an indirect investor and these minimums may not apply to you. More information can be obtained from your IDPS operator.

Minimum initial investment	\$25,000	Minimum additional investment	\$1,000
Minimum unit holding value	\$15,000	Minimum redemption amount	No minimum
Applications and Redemptions	Daily	Unit pricing	Daily
Distributions paid	Generally semi-annually		
Transaction costs	Applications +0.30% / redemptions -0.30% of the net asset value unit price		
Fees and costs	See section 6 'Fees and costs' for management and performance fees.		

🕒 **Applications:** The minimum initial investment amount is \$25,000. Additional investments must be for a minimum of \$1,000. Completed application forms received before 3:00pm AEST will usually be processed at the issue price calculated on the same Business Day. The issue price is the daily unit price plus a transaction cost of 0.30%.

Transaction costs (the cost when you buy or sell units) are costs paid by the Fund that represent the costs associated with brokerage and stamp duties, taxes and other expenses for buying and selling investments. These costs do not represent a fee to Celeste or any agent. Transactions costs can change.

🕒 **Withdrawals:** Investors can withdraw their investment by making a redemption request for some or all of their units. The redemption price for each unit is the daily unit price minus a transaction cost of 0.30%. Redemption requests received before 3:00pm AEST will usually be processed at the redemption price at the close of business on that Business day.

It is our intention to manage the Fund so that it is "liquid" for the purposes of the Corporations Act 2001 (**Corporations Act**). If the Fund is not sufficiently liquid then investors will only be permitted to withdraw if we make a withdrawal offer to all investors in accordance with the Fund constitution and Corporations Act. In these circumstances investors may not be able to withdraw funds within the usual period on their request.

In some circumstances we may also compulsorily redeem your units, for example, where we suspect that a law prohibits you from being an investor in the Fund. For further information, go to Section A4 'Withdrawing your Investment' of the Fund's Additional Information Booklet.

⊖ **Distributions:** The net income of the Fund is distributed as soon as possible after 30 June and 31 December of each year. Each investor's distribution amount is calculated by dividing the total amount of the distribution by the total number of units on issue at the distribution date, and multiplying the result by the number of units held by each investor on that date. In each financial year, the full amount of taxable income available for distribution from the Fund is intended to be distributed to investors.

⊖ **Master trust and wrap account investors:** Investors who invest through an IDPS (such as a master trust or wrap account) may be subject to different conditions with regard to applications, withdrawals and will not have the same rights as a direct investor in the Fund. Investors should read section A3 'Investing through a master trust or wrap account' of the Fund's Additional Information Booklet and refer to their IDPS operator or financial adviser for more information.

*You should read the following important information before making a decision: ⊖A1 Application and redemption prices, ⊖A2 Applications for investment, ⊖F6 Appointment of agent, ⊖A3 Investing through a master trust or wrap account, ⊖A4 Withdrawing your investment, ⊖A5 Distributions and ⊖F5 The custodian. Go to Section A and F of the Additional Information Booklet or visit the Offer Documents section of our website at [www.celestefunds.com.au](http://www.celestefunds.com.au). This information may change between the time you read this PDS & the day when you acquire the product.*

## Section 3: Benefits of investing in the Celeste Australian Small Companies Fund

### Significant Features

The Celeste Australian Small Companies Fund provides Australian investors with exposure to a diversified portfolio of Australian Securities Exchange (ASX) listed smaller companies. The performance of the Fund is benchmarked against the S&P/ASX Small Ordinaries Accumulation Index (the **Benchmark**). The investment objective of the Fund is to produce returns which exceed the Benchmark by 5% over rolling three-year periods (after fees and expenses and before taxes). The Fund's major focus is on smaller companies outside the S&P/ASX 100 Index. Celeste has considerable historic expertise in the smaller company area and believes that it can generate superior investment returns by the disciplined application of its investment process.

It is our policy to only have exposure to ASX listed securities. Diversification is maintained at a stock level by holding a minimum of 20 individual securities. The Fund may invest in all industry sectors listed on the ASX, however, the Fund is not limited or constrained to any particular exposure or industry group. Exposure to industry groupings will be determined by the stocks which we invest in. This may at times lead to a high investment exposure to any one industry sector.

To control and reduce the investment risk of the Fund, Celeste generally adopts the following policies:

- Maintaining a diversified portfolio of stocks generally numbering between 30 and 40;
- Limiting the maximum exposure of any stock to 10% of the net asset value of the Fund (as at the time of purchase). The exposure may increase by a further 2% above this limit due to market movement; and
- Restricting the maximum exposure to stocks with a market capitalisation of less than \$50 million to 5% of the Fund.

The Fund charges a performance fee of 20% of investment returns made in excess of the performance of the Benchmark. For more detailed information about performance fees read Section 6 'Fees and costs' and section C2 of the Additional Information Booklet.

### Significant Benefits

An investment in the Fund has certain advantages including:

- your money is managed by Celeste's investment professionals who have access to investment techniques that may not be available to all investors;
- providing exposure to a more diversified portfolio than may be available to investors on their own;
- access to investment opportunities and markets that may not be accessible to all investors;
- generally you can apply to withdraw your investment on any Business Day;
- fund managers can usually invest at a lower cost than individual investors; and
- from its investments, the Fund is expected to generate (but does not guarantee it will generate) for investors:
  - dividends;

- interest;
- capital gains (as well as capital losses);
- franking credits; and
- other income.

You have the right to receive your proportionate entitlement to any distributions we make from the Fund. Distributions can be made up of income and realised capital gains at the end of the Fund's financial year. You may also benefit from capital gains or incur losses when you withdraw your investment.

## Section 4: Risks of managed investment schemes

---

All investments carry risk. The investment return and the risk of losing money will differ between managed investment schemes as different investment strategies carry different levels of risk depending on the underlying mix of assets that make up each fund. Investments in assets aimed to generate high long-term returns may also carry high levels of short term risk. Risk can be managed but cannot be completely eliminated. When investing, it is important to understand that

- the value of your investment will go up and down,
- investment returns will vary and may differ from past returns,
- the performance of the Fund or the return of capital is not guaranteed – this means you could receive back less than what you initially invested.

The appropriate level of risk for you will depend on your financial goals, age, investment timeframe, where other parts of your wealth are invested and the how comfortable you are with the possibility of losing some of your money in some years.

The significant risks for the Fund are:

**Individual investment risk:** Individual investments made by the Fund will fluctuate in value, meaning that on occasion, they may fall in value. A company's share price may fluctuate for a number of reasons. A company may undergo changes in its financial or operating circumstances, and may also face broader influences such as political and industry changes.

**Market, country, interest rate and political risk:** Economic, technological, political, legal and market conditions in countries in which the underlying assets of the Fund operate in are variable, particularly in developing countries. Changes in these factors can have both positive and negative influences on the value of the Fund's investments. The economic, technological, political, legal and market conditions in these other countries may impact on the operations of these companies which may, in turn, have an indirect impact upon the value of the Fund's assets.

Changes in interest rates can also have a positive or negative impact directly or indirectly on investment values or returns.

**Fund risk:** Risks particular to the Fund include the risk that it could be terminated, the fees and expenses could change, Celeste could be replaced as responsible entity and/or investment manager or its portfolio managers could change. There is also a risk that investing in the Fund may give different results than investing directly in securities because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors. If there is an interruption of regular trading in the market for an asset of the Fund, there may be delays in processing withdrawal requests. The laws affecting registered managed investment schemes may change in the future.

**Liquidity risk:** As the Fund will invest in securities listed on the Australian Securities Exchange, if there is an interruption of regular trading in a market, or for a particular asset of the Fund, there may be delays in processing withdrawal requests. Similarly, for some securities in the Fund where the volume of trading is low, the ability to liquidate those securities in a timely manner may be impacted.

**Timing risk:** The share market is susceptible to short-term unpredictable downward price movements, particularly in shares of smaller companies. Consequently, investors should have an investment time horizon of at least 3 years.

Labour, environmental, social or ethical considerations	<p>Celeste believes that environmental, social and governance issues have an impact on share valuations and affect the performance of investment portfolios. Managed poorly, these factors have the potential to destroy shareholder value.</p> <p>Celeste takes into account the impact that company activities will have on the environment through such factors as carbon emissions, water use and pollution. With respect to social issues, Celeste considers factors such as employee training, industrial relations, codes of behaviour, and work practices.</p> <p>Celeste does not have a predetermined view as to what constitutes a labour standard or ethical consideration, however, may engage management where, in our view, these issues put value at risk.</p>

## Section 6: Fees and costs

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from A\$100,000 to A\$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the Fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website ([www.moneySMART.gov.au](http://www.moneySMART.gov.au)) has a managed funds fee calculator to help you check out different fee options.

This PDS shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the fund assets as a whole.

You can use this table to compare costs between different simple managed investment schemes.

ASIC Class Order 14/1252 applies in relation to this PDS.

TYPE OF FEE OR COST	AMOUNT
<b>Fees when your money moves in or out of the Fund</b>	
<i>Establishment fee</i>	Nil
<i>Contribution fee</i>	Nil
<i>Withdrawal fee</i>	Nil
<i>Exit fee</i>	Nil
<b>Management costs</b>	
<b>The fees and costs for managing your investment</b>	
<b>Management fee 1*</b>	1.20% p.a. of the net asset value of the Fund
<b>Performance fee 1*</b>	20% of the return of the Fund (net of management fees) that exceeds the return of the Benchmark

*In this section all fees and costs include, if applicable, GST less any reduced input tax credits (RITC). If the GST and RITC changes, the Fund's constitution allows us to recoup any extra amount out of the Fund.*

1\* The amount of this fee can be negotiated for wholesale investors.

### Example of annual fees and costs

This table gives an example of how the fees and costs for this product can affect your investment over a one year period. You should use this table to compare this product with other managed investment products.

<b>EXAMPLE 1: Celeste Australian Small Companies Fund</b>		<b>BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING YEAR</b>
Contribution Fees	Nil	\$0
<b>PLUS</b> Management Costs Management Fee + Estimated performance fee	1.20% 1.21%	<b>And</b> , for every \$50,000 you have in the fund you will be charged \$1,205.00 each year.
<b>EQUALS</b> Cost of fund	2.41%	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of \$1,205.00*  <b>What it costs you will depend on the fees you negotiate with your fund or financial adviser.</b>

**NOTE 1:** This example does not take into account any movements in the investor's investment over the course of the year.

**NOTE 2:** The performance fee of 1.21% is based upon the performance of the Fund against the Benchmark over the ten year period from 31 May 2007 to 31 May 2017. This is not a forecast of the performance of the Fund or the amount of the performance fee in the future. Past performance is not a reliable indicator of future performance.

\* **Additional fees may apply:** The above example assumes the balance of \$50,000 remains constant throughout the year and the additional contribution of \$5,000 was made on the last business day of the year. Any additional investments made will increase the portfolio balance on which the management costs are calculated. The 'Cost of fund' includes an estimated performance fee amount.

- ⊖ **Adviser fees:** We do not pay fees to financial advisers. If you consult a financial adviser, you may incur additional fees from your financial adviser and should refer to your Statement of Advice for any fee details.
- ⊖ **Performance Fee:** This performance fee is 20% of the amount by which the actual performance of the Fund (net of management fees) exceeds the Benchmark.

The performance fee is calculated and accrued daily and paid quarterly. You should read the additional information on the performance fee, how it is calculated and when it is paid, in section C2 of the Fund's Information Booklet.

⊖ **Additional explanation of fees and costs:** Fees can change. Subject to the Fund's constitution and law, the fees outlined above may be varied at any time at the absolute discretion of Celeste. Reasons might include changing economic conditions or changes in the law. Celeste will provide investors in the Fund with at least 30 days' notice of any proposed increase in fees.

Some fees can be negotiated if you are a wholesale investor. The Fund may also incur incidental fees if significant changes to the Fund are made.

**You should read the following important information before making a decision: ⊖C2 Performance fee, ⊖C3 GST – Reduced Input Tax Credit, ⊖C4 Transactional and operational costs, ⊖C5 Flexible charging structure, ⊖C6 Adviser fees, ⊖C7 Changes to fees, ⊖C8 Negotiated fees and ⊖C9 Abnormal Expenses. ## Section 7: How managed investment schemes are taxed

---

Investing in a registered managed investment scheme, and dealing with investments, often has tax implications which can be complex and particular to your circumstances.

Registered managed investment schemes do not pay tax on behalf of investors. Investors are assessed on any income and capital gains or losses generated by their investment in a managed investment scheme.

Investors are recommended to seek professional tax advice that takes account of your particular circumstances or personal objectives before you invest or deal with your investment.

**CRS definitions**

The following terms have special meanings ascribed to them when they are used in relation to the CRS. Please note that similar terms may also be used in connection with FATCA, and those terms may not have the same meaning as the terms defined below. Investors who are uncertain about the application of the CRS or FATCA should consult their tax adviser. Please note that this does not contain a full list of the defined terms in relation to the CRS. Capitalised terms or terms placed in quotation marks below which do not have their meaning set out below will have the meaning given to them in the CRS.

**Active NFE** - An entity is classified as an "Active NFE" if it is an NFE and meets any of the following criteria:

- (a) Active NFEs by reason of income and assets: Less than 50% of the NFE's gross income for the preceding calendar year (or other appropriate reporting period) is passive income and less than 50% of the assets held by the NFE during the preceding calendar year (or other appropriate reporting period) are assets that produce or are held for the production of passive income;
- (b) Regularly publicly traded NFEs: The stock of the NFE is regularly traded on an established securities market or the NFE is a "Related Entity" of an entity the stock of which is regularly traded on an established securities market. An entity is a "Related Entity" of another entity if either entity controls the other entity, or the two entities are under common control. For this purpose control includes direct or indirect ownership of more than 50% of the vote and value in an entity;
- (c) Government Entities, etc: The NFE is a "Governmental Entity", a "Central Bank", an "International Organisation" or an entity wholly owned by one or more of the foregoing;

- (d) Holding NFEs that are members of a nonfinancial group: Substantially all of the activities of the NFE consist of holding (in whole or in part) the outstanding stock of, or providing financing and services to, one or more subsidiaries that engage in trades or businesses other than the business of a Financial Institution, except that an entity does not qualify for this status if the entity functions (or holds itself out) as an investment fund (such as a private equity fund, venture capital fund, leveraged buyout fund, or any investment vehicle whose purpose is to acquire or fund companies and then hold interests in those companies as capital assets for investment purposes);
- (e) Start-up NFEs: The NFE is not yet operating a business and has no prior operating history but is investing capital into assets with the intent to operate a business other than that of a Financial Institution; provided that the NFE does not qualify for this status after the date that is 24 months after the date of the initial organisation of the NFE;
- (f) NFEs that are liquidating or emerging from bankruptcy: The NFE was not a Financial Institution in the past five years, and is in the process of liquidating its assets or is reorganising with the intent to continue or recommence operations in a business other than that of a Financial Institution;
- (g) Treasury centres that are members of a nonfinancial group: The NFE primarily engages in financing and hedging transactions with, or for, Related Entities that are not Financial Institutions, and does not provide financing or hedging services to any entity that is not a Related Entity; provided that the group of any such Related Entities is primarily engaged in a business other than that of a Financial Institution; or
- (h) Non-profit NFEs: The NFE meets all of the following requirements:
  - (i) it is established and operated in its jurisdiction of residence exclusively for religious, charitable, scientific, artistic, cultural, athletic, or educational purposes; or it is established and operated in its jurisdiction of residence and it is a professional organisation, business league, chamber of commerce, labour organisation, agricultural or horticultural organisation, civic league or an organisation operated exclusively for the promotion of social welfare;
  - (ii) it is exempt from income tax in its jurisdiction of residence;
  - (iii) it has no shareholders or members who have a proprietary or beneficial interest in its income or assets;
  - (iv) the applicable laws of the NFE's jurisdiction of residence or the NFE's formation documents do not permit any income or assets of the NFE to be distributed to, or applied for the benefit of, a private person or non-charitable entity other than pursuant to the conduct of the NFE's charitable activities, or as payment of reasonable compensation for services rendered, or as payment representing the fair market value of property which the NFE has purchased; and
  - (v) the applicable laws of the NFE's jurisdiction of residence or the NFE's formation documents require that, upon the NFE's liquidation or dissolution, all of its assets be distributed to a Governmental Entity or other non-profit organisation, or escheat to the government of the NFE's jurisdiction of residence or any political subdivision.

**Controlling Person(s)** means:

- (a) With respect to an entity that is a legal person, the natural person(s) who exercises control over the entity. "Control" over an entity that is a legal person is generally exercised by the natural person(s) who ultimately has a controlling ownership interest (usually identified on the basis of, but not limited to, ownership of a certain percentage of the entity (e.g., very generally 25% or more, although it can be a lower percentage in some circumstances)). Where no natural person(s) exercises control through ownership interests, the Controlling Person(s) of the entity will be the natural person(s) who exercises control of the entity through other means. Where no natural person is identified as exercising control of the entity through ownership interests, the Controlling Person(s) is deemed to be the natural person(s) who holds the position of senior managing official.

- (b) With respect to a trust, (i) the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) and/or class(es) of beneficiaries of the trust, regardless of whether any of them exercises control over the trust, and (ii) any other natural person(s) exercising ultimate effective control over the trust (including through a chain of control or ownership).
- (c) With respect to a legal arrangement (i.e., where the relevant entity is not a legal person) that is not a trust, the natural person(s) in equivalent or similar positions as Controlling Person(s) of a trust.

The term "Controlling Person(s)" should generally be interpreted in a manner consistent with relevant Financial Action Task Force Recommendations on the term "beneficial owner". Investors that are Passive NFEs (including Investment Entities located in a CRS Non-Participating Jurisdiction and managed by another Financial Institution) should consult their own advisors regarding any Controlling Person(s) they may have.

**Financial Institution** means an "Investment Entity" (separately defined below), a "Custodial Institution", a "Depository Institution", or a "Specified Insurance Company". Please consider Australia's implementations of CRS for additional information that may be relevant to the term "Financial Institution"

- (a) "Custodial Institution" means any entity that holds, as a substantial portion of its business, "Financial Assets" for the account of others. This is where the entity's gross income attributable to the holding of Financial Assets and related financial services equals or exceeds 20% of the entity's gross income during the shorter of: (i) the three-year period that ends on 31 December (or the final day of a non-calendar year accounting period) prior to the year in which the determination is being made; or (ii) the period during which the entity has been in existence
- (b) "Depository Institution" means any entity that accepts deposits in the ordinary course of a banking or similar business
- (c) "Specified Insurance Company" means any entity that is an insurance company (or the holding company of an insurance company) that issues, or is obligated to make payments with respect to, a "Cash Value Insurance Contract" or "Annuity Contract".

**International Organisation** includes an intergovernmental organisation or supranational organisation (i) which is comprised primarily of governments; (2) which has in effect a headquarters (or substantially similar agreement) with the relevant jurisdiction, and (3) the income of which does not inure to the benefit of private persons. Certain other entities may qualify as "International Organisations", which has a restrictive meaning under CRS that, for the avoidance of doubt, does not refer to an organisation merely located outside of the relevant jurisdiction.

**Investment Entity** means one of two types of entities:

- (a) the first type is an entity that primarily conducts as a business one or more of the following activities or operations for or on behalf of a customer:
  - (i) trading in money market instruments (cheques, bills, certificates of deposit, derivatives, etc.); foreign exchange; exchange, interest rate and index instruments; transferable securities; or commodity futures trading;
  - (ii) individual and collective portfolio management; or
  - (iii) otherwise investing, administering, or managing Financial Assets or money on behalf of other persons;
- (b) the second type is any entity the gross income of which is primarily attributable to investing, reinvesting, or trading in Financial Assets where the entity is managed by another entity that is the other type of Investment Entity or by a Custodial Institution, a Depository Institution or a Specified Insurance Company.

**Investment Entity located in a CRS Non-Participating Jurisdiction and managed by another Financial Institution**

means an entity that: (i) is the second type of “Investment Entity” described in the definition above and (ii) is tax resident in a CRS Non-Participating Jurisdiction.

A “CRS Non-Participating Jurisdiction” means a jurisdiction which generally does not have an agreement in place pursuant to which it will provide to another jurisdiction(s) the information set out in Section I of the Common Reporting Standard within CRS. If an investor has questions about whether it is tax resident in a CRS Non-Participating Jurisdiction, it should consult its own tax advisor.

**Jurisdiction of Tax Residence** (or a reference to the jurisdiction(s) where an entity is a tax resident) - Generally, an entity will be resident for tax purposes in a jurisdiction if, under the laws of that jurisdiction (including an applicable tax convention), it pays or should be paying tax therein by reason of its domicile, residence, place of management or incorporation, or any other criterion of a similar nature, and not only from sources in that jurisdiction. If an entity is a dual resident entity, an entity that does not have a residence for tax purposes or a trust, special rules may apply. An investor that does not know its jurisdiction(s) of residence for tax purposes should consult its own advisor.

**Non-Financial Entity (NFE)** means an entity that is not a Financial Institution.

**Passive NFE** means:

- (i) an NFE that is not an Active NFE; or
- (ii) an Investment Entity located in a CRS Non-Participating Jurisdiction and managed by another Financial Institution.

**Taxpayer Identification Number (“TIN”)** refers to a unique combination of letters and/or numbers assigned by a jurisdiction to an entity or an individual and used to identify the entity or individual for the purposes of tax filing or administration of the tax laws of such jurisdiction. Where certain jurisdictions do not issue TINs, they may utilize some other high integrity number with an equivalent level of identification (a functional equivalent), which should be provided where a TIN is requested in this Application Form.
