The responsible entity is part of the ASX listed Perpetual Limited group of companies which has been in operation for over 130 years. Perpetual is responsible for the day to day operations of the Fund and has the power to delegate certain aspects of its duties. Perpetual has appointed Celeste as the investment manager of the Fund.

The Investment Manager

Celeste aims to provide above benchmark returns for clients with a conservative nature and a patient disposition. For details on the Celeste team and their financial markets experience, please refer to our website www.celestefunds.com.au/about-us/key-people/.

Section 2: How the Celeste Australian Small Companies Fund works

The Fund is a managed investment scheme registered with ASIC and is not listed on any securities exchange. When you invest in a managed fund, your money is pooled together with other investors' money. Perpetual has appointed Link Fund Solutions Pty Limited ABN 44 114 914 215 (Corporate Authorised Representative of Pacific Custodians Pty Limited ABN 66 009 682 866, AFSL 295142) (**LFS**) as the custodian and administrator of the Fund. LFS has not been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. LFS has not independently verified the information contained in this PDS and, accordingly, accepts no responsibility for the accuracy or completeness of the information. LFS does not guarantee the success or the performance of the Fund nor the repayment of capital or any particular rate of capital or income return.

🕒 **Unit pricing:** When you invest you acquire units in the Fund that represent the value of your investment. The price of each unit is based on the value of the assets of the Fund, less the accrued expenses and other liabilities of the Fund (including the daily accrued management and performance fees), divided by the number of units on issue. The value of units will change as the value of the underlying investments rises or falls. You can increase or decrease your investment by making additional applications for units or withdrawal requests.

Unit prices are calculated each Business Day and are carried out in accordance with the Fund constitution and the Perpetual Unit Pricing policy. We will inform the unit holders if we exercise our discretion to change the current unit pricing process of the Fund.

The minimum initial investment, holding value and transaction values are set out below. We reserve the right to waive or vary these minimums at our absolute discretion. If you invest through an IDPS, you will be an indirect investor and these minimums may not apply to you. More information can be obtained from your IDPS operator.

Minimum initial investment	\$25,000	Minimum additional investment	\$1,000
Minimum unit holding value	\$15,000	Minimum redemption amount	No minimum
Applications and Redemptions	Daily	Unit pricing	Daily
Distributions paid	Generally semi-annually		
Transaction costs	Applications +0.30% / redemptions -0.30% of the net asset value unit price		
Fees and costs	See section 6 'Fees and costs' for management and performance fees.		

🕒 **Applications:** The minimum initial investment amount is \$25,000. Additional investments must be for a minimum of \$1,000. Completed application forms with cleared payment received before 3:00pm AEST will usually be processed at the issue price calculated for the same Business Day. The issue price is the daily unit price plus a transaction cost of 0.30%.

Transaction costs (the cost when you buy or sell units) are costs paid by the Fund that represent the costs associated with brokerage and stamp duties, taxes and other expenses for buying and selling investments. These costs do not represent a fee to Celeste or any agent. Transactions costs can change.

🕒 **Withdrawals:** Investors can withdraw their investment by making a redemption request for some or all of their units. The redemption price for each unit is the daily unit price minus a transaction cost of 0.30%. Redemption requests received before 3:00pm AEST will usually be processed at the redemption price at the close of business on that Business day.

It is our intention to manage the Fund so that it is "liquid" for the purposes of the *Corporations Act 2001* (Cth) (**Corporations Act**). If the Fund is not sufficiently liquid then investors will only be permitted to withdraw if we

make a withdrawal offer to all investors in accordance with the Fund constitution and Corporations Act. In these circumstances investors may not be able to withdraw funds within the usual period on their request.

In some circumstances we may also compulsorily redeem your units, for example, where we suspect that a law prohibits you from being an investor in the Fund. For further information, go to Section A4 'Withdrawing your Investment' of the Fund's Additional Information Booklet.

⊖ **Distributions:** The net income of the Fund is distributed as soon as possible after 30 June and 31 December of each year. Each investor's distribution amount is calculated by dividing the total amount of the distribution by the total number of units on issue at the distribution date, and multiplying the result by the number of units held by each investor on that date. In each financial year, the full amount of taxable income available for distribution from the Fund is intended to be distributed to investors.

⊖ **Master trust and wrap account investors:** Investors who invest through an IDPS (such as a master trust or wrap account) may be subject to different conditions with regard to applications and withdrawals and will not have the same rights as a direct investor in the Fund. Investors should read section A3 'Investing through a master trust or wrap account' of the Fund's Additional Information Booklet and refer to their IDPS operator or financial adviser for more information.

You should read the following important information before making a decision: ⊖A1 Application and redemption prices, ⊖A2 Applications for investment, ⊖F7 Appointment of agent, ⊖A3 Investing through a master trust or wrap account, ⊖A4 Withdrawing your investment, ⊖A5 Distributions and ⊖F6 The custodian. Go to Section A and F of the Additional Information Booklet, which can be found at the "How to Invest" section of Celeste's website at www.celestefunds.com.au. This information may change between the time you read this PDS & the day when you acquire the product.

Section 3: Benefits of investing in the Celeste Australian Small Companies Fund

Significant Features

The Celeste Australian Small Companies Fund provides Australian investors with exposure to a diversified portfolio of smaller companies, trusts and other entities listed on the Australian Securities Exchange (**ASX**). The performance of the Fund is benchmarked against the S&P/ASX Small Ordinaries Accumulation Index (the **Benchmark**). The investment objective of the Fund is to produce returns which exceed the Benchmark over rolling five year periods (after fees and expenses and before taxes). The Fund's major focus is on smaller companies outside the S&P/ASX 100 Index. Celeste has considerable historic expertise in the smaller company area and believes that it can generate superior investment returns by the disciplined application of its investment process.

It is our policy to only have exposure to ASX listed securities. Diversification is maintained at a stock level by holding a minimum of 20 individual securities. The Fund may invest in all industry sectors listed on the ASX, however, the Fund is not limited or constrained to any particular exposure or industry group. Exposure to industry groupings will be determined by the stocks which we invest in. This may at times lead to a high investment exposure to any one industry sector.

To control and reduce the investment risk of the Fund, Celeste generally adopts the following policies:

- Maintaining a diversified portfolio of stocks generally numbering between 30 and 50;
- Limiting the maximum exposure of any stock to 10% of the net asset value of the Fund (as at the time of purchase). The exposure may increase by a further 2% above this limit due to market movement.

Significant Benefits

An investment in the Fund has certain advantages including:

- your money is managed by Celeste's investment professionals who have access to investment techniques that may not be available to all investors;
- providing exposure to a more diversified portfolio than may be available to investors on their own;
- access to investment opportunities and markets that may not be accessible to all investors;
- generally you can apply to withdraw your investment on any Business Day;
- fund managers can usually invest at a lower cost than individual investors; and
- from its investments, the Fund is expected to generate (but does not guarantee it will generate) for investors:
 - dividends;
 - interest;

- capital gains (as well as capital losses);
- franking credits; and
- other income.

You have the right to receive your proportionate entitlement to any distributions we make from the Fund. Distributions can be made up of income and realised capital gains at the end of the Fund's financial year. You may also benefit from capital gains or incur losses when you withdraw your investment.

Section 4: Risks of managed investment schemes

All investments carry risk. The investment return and the risk of losing money will differ between managed investment schemes as different investment strategies carry different levels of risk depending on the underlying mix of assets that make up each fund. Investments in assets aimed to generate high long-term returns may also carry high levels of short term risk. Risk can be managed but cannot be completely eliminated. When investing, it is important to understand that:

- the value of your investment will go up and down;
- investment returns will vary and may differ from past returns; and
- the performance of the Fund or the return of capital is not guaranteed – this means you could receive back less than what you initially invested.

The appropriate level of risk for you will depend on your financial goals, age, investment timeframe, where other parts of your wealth are invested and how comfortable you are with the possibility of losing some of your money in some years.

The significant risks for the Fund are:

Individual investment risk: Individual investments made by the Fund will fluctuate in value, meaning that on occasion, they may fall in value. A company's share price may fluctuate for a number of reasons. A company may undergo changes in its financial or operating circumstances, and may also face broader influences such as political and industry changes.

Market, country, interest rate and political risk: Certain events may have a negative effect on the price of all types of investments within a particular market. These events may include changes in economic, social, technological or political conditions, as well as market sentiment, the causes of which may include changes in governments or government policies, political unrest, wars, terrorism, pandemics and natural, nuclear and environmental disasters. The duration and potential impacts of such events can be highly unpredictable, which may give rise to increased and/or prolonged market volatility.

Changes in interest rates can also have a positive or negative impact directly or indirectly on investment values or returns.

Fund risk: Risks particular to the Fund include the risk that it could be terminated, the fees and expenses could change, Perpetual could be replaced as responsible entity and/or Celeste could be replaced as investment manager or its portfolio managers could change. There is also a risk that investing in the Fund may give different results than investing directly in securities because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors. If there is an interruption of regular trading in the market for an asset of the Fund, there may be delays in processing withdrawal requests. The laws affecting registered managed investment schemes may change in the future.

Liquidity risk: As the Fund will invest in securities listed on the Australian Securities Exchange, if there is an interruption of regular trading in a market, or for a particular asset of the Fund, there may be delays in processing withdrawal requests. Similarly, for some securities in the Fund where the volume of trading is low, the ability to liquidate those securities in a timely manner may be impacted.

Timing risk: The share market is susceptible to short-term unpredictable downward price movements, particularly in shares of smaller companies. Consequently, investors should have an investment time horizon of at least 5 years.

Section 5: How we invest your money

When making an investment decision you should consider the likely investment return, the risk and your own investment timeframe.

If there is a material change, we will update this PDS and inform investors of the material change as required by law. If you are investing through an IDPS, information and reports on your investment in the Fund will be provided to you by the operator of that service, not by us.		
ⓘ Labour, environmental, social or ethical considerations	<p>Celeste believes that environmental, social and governance issues have an impact on share valuations and affect the performance of investment portfolios. Managed poorly, these factors have the potential to destroy shareholder value.</p> <p>Celeste takes into account the impact that company activities will have on the environment through such factors as carbon emissions, water use and pollution. With respect to social issues, Celeste considers factors such as employee training, industrial relations, codes of behaviour, and work practices.</p> <p>Celeste does not have a predetermined view as to what constitutes a labour standard or ethical consideration, however, it may engage management where, in its view, these issues put value at risk.</p>

Section 6: Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from A\$100,000 to A\$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

This PDS shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the fund assets as a whole.

You can use this table to compare costs between different simple managed investment schemes.

TYPE OF FEE OR COST	AMOUNT
Fees when your money moves in or out of the Fund	
<i>Establishment fee</i>	Nil
<i>Contribution fee</i>	Nil
<i>Withdrawal fee</i>	Nil
<i>Exit fee</i>	Nil
Management costs	
The fees and costs for managing your investment	
Management fee ¹	1.10% p.a. of the net asset value of the Fund
Performance fee ¹	20% of the return of the Fund (net of management fees) that exceeds the return of the Benchmark
Estimated indirect costs ²	0.00% p.a. of the net asset value of the Fund.

In this section all fees and costs include, if applicable, GST less any reduced input tax credits (RITC). If the GST and RITC changes, the Fund's constitution allows us to recoup any extra amount out of the Fund.

¹The amount of this fee can be negotiated for wholesale investors.

²The Manager has agreed to pay reimbursable Fund expenses out of its investment management fee except for transactional and operational costs and any abnormal expenses.

Example of annual fees and costs

This table gives an example of how the fees and costs for this product can affect your investment over a one year period. You should use this table to compare this product with other managed investment products.

EXAMPLE 1: Celeste Australian Small Companies Fund		BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING YEAR ¹
Contribution Fees	Nil	\$0
PLUS Management Costs		And , for every \$50,000 you have in the fund you will be charged \$845.00 each year.
Management fee	1.10%	
+ Estimated performance fee ²	0.59%	
+ Estimated indirect costs	0.00%	
EQUALS Cost of fund	1.69%	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of \$845.00 ³ .
		What it costs you will depend on the fees you negotiate with your fund or financial adviser.

¹The above example assumes the management costs were calculated on a balance of \$50,000 only. It does not take account of management costs that would be charged on the additional \$5,000 contributed during the year nor any movements in the value of an investor's units that may occur over the course of a year. If you had invested the additional \$5,000 for a full 12 months, the additional management costs would be \$84.50 (comprising \$55.00 in management fees, \$0.00 in estimated indirect costs and \$29.50 estimated performance fee).

²The listed performance fee amount of 0.59% is based upon the performance of the Fund against the Benchmark over the ten year period from 1 July 2011 to 30 June 2021. Past performance and these estimates are not indicative of future returns. Performance fees payable in the future may vary depending on the Fund's actual performance.

³Additional fees may apply. Please refer to the "Additional information on fees and costs" section of this PDS.

Additional explanation of fees and costs

⊖ **Adviser fees:** We do not pay fees to financial advisers. If you consult a financial adviser, you may incur additional fees from your financial adviser and should refer to your Statement of Advice for any fee details.

⊖ **Performance Fee:** This performance fee is 20% of the amount by which the actual performance of the Fund (net of management fees) exceeds the Benchmark.

The performance fee is calculated and accrued daily and paid quarterly. You should read the additional information on the performance fee, how it is calculated and when it is paid, in section C2 of the Fund's Additional Information Booklet.

⊖ **Changes to fees and costs:** Fees can change. Subject to the Fund's constitution and law, the fees outlined above may be varied at any time at the absolute discretion of Perpetual. Reasons might include changing economic conditions or changes in the law. Perpetual will provide investors in the Fund with at least 30 days' notice of any proposed increase in fees. Some fees can be negotiated if you are a wholesale investor.
